THE WEATHER AND THE RIVER .- The cold weather of the pas; few days was followed yeserday morning by a soow storm, which conticued till after one o'clock, when is began to rain. making the day a most disagreeable one. The rain continued all yesterday and the greater portion of to-lay. The pavements this mora-ing were covered with sleet, and the guiters and street crossings were flooded, the slu-h and water standing to a considerable depth. The morning was sufficiently disagreeable to keep all indoors who were not, by stress of croumstances, compelled to be out. The weather this afternoon, after four o'clock, was clear and pleasant.

The river is filled with floating ice, not, however, to an extent sufficient to impade nav g .tion. The Philadelphia str. Ann Elz: did not leave here until late Tuesday evening on resount of the ice. The steamer Lady of the Lake, which arrived here from Norfolk yesterday morning, experienced no difficulty whatever with the ice. The steamer left last night for Norfolk. The Alexandria and Washington ferry steamers have not been detained this winter in their regular tries, and it is not thought probable they will h. The schooner Mable Phomas, which wert ashore on the flate, opposite the American coal

wharf, got off yesterday morning and was towed down the river by the steam tug Comet. She is bound for Providence. There are no large vessels now at this port. The steam tugs have all laid up for the winter and everything is dull around the whatves.
